Physical healing is part of the blood atonement of Christ.Von Ein KundeThis book is a collection of sermon's by F.F.Bosworth in which he teaches the promise and provision of healing for the physical body as part of the blood atonement of Christ. This book forever settles whether or not it is God's will to heal every sufferer.F.F. Bosworth calls the believer back to a simple faith in the word of God especially those promises which pertain to healing. He shows that healing is available to "whosoever will believe" and provides the scripture references and strategies for appropriating healing. He also addresses and soundly dispels the arguments that some in the church community use to discourage a full trust in the provision of healing.Complete with testimonies of miraculous healings, this book is a must read for anyone needing divine intervention in their physical body as well as for the believer who wants to be able to effectively pray for the sick. If it were mandatory reading for every pastor, the Church would certainly be a more powerful witness to the love and salvation of Christ. Most highly recommended!
