Stunning!Von A.K.BFirst glimpse inside - and I was in love with this somic. As a Runaways-Fan, I was curious about

the hints given in Runaways 7, so I ordered this comic and was stunned by the awesome artwork. Really, it's one of the best I've ever seen, so even if you're not familiar with the Runaways or the Young Avengers Plot, you can get a lot out of the impressive work from Caselli's Art and Wells' Story (who really knows the characters - everyone acts like it's suitable for him and his background). There even are character sheets for every character in the back, so you can catch up if you get curious (which I surely did - I didn't know the Young Avengers before, but they appear worth to look further into. I also didn't know Civil War - didn't matter, the important things get around). I would love to read more, but it seems like this is a one-tome spin-off from the original series, and the plot is most about the interaction between the groups. But also the enemy-thread is convincing. So, I can just fully approve of this comic. You should look into it.
