Von Wesley Callihan, Douglas Jones, Douglas Wilson : Classical Education and the Homeschool (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Classical Education and the Homeschool (English Edition):

to implement it in the home school. The author describes the ancient medieval model of the trivium (the three stages of learning: grammar, dialectic and rhetoric) and urges a return to this time tested method of education in a reformed Christian context. Included are recommended reading lists. I consider this booklet essential reading for home educators.

KurzbeschreibungAs we survey the educational ruins around us, classical and Christian education appears to be an idea whose time has come again. More and more Christian parents are seeing the failures of modern education, and they are hungering for a substantive alternative, one that has been tested before and found to be good. Classical and Christian education presents them with just such an alternative.
