Not quite for a true beginnerVon Ein KundeI was disappointed with this approach to teaching the language. The book goes from explaining grammar and pronunciation right into dialog, with no pronunciation or sentence structure breakdown accompanying the dialog sentences. Unless you take to the cyrillic alphabet right away, there will be a lot of flipping back and forth to try to figure out the words. The pace presented was just not a beginner's pace. The spoken words on the tapes are not always clear and unless you have the book in front of you in a quiet room, they're difficult to follow. The overall contents of the package may be thorough but for someone truly starting from scratch, this set was not a good first step. I couldn't get past lesson one without giving up in frustration.1 von 1 Kunden fanden die folgende Rezension hilfreich. ExemplaryVon Ein KundeSanders was lecturer at Mongolian at London's SOAS, and this is a thorough and well written course. Includes information on both scripts. Wer "Colloquial Mongolian" als Bchlein zum autodidaktischen Studium der mongolischen Sprache haben will, dem sei davon abgeraten! Andererseits ist die mongolische Sprache eh' so verzwickt, dass man sie nicht autodidaktisch erlernen kann. Was das Buch angeht, es bietet witzige und lebensnahe Dialoge, die - so denke ich- eine gute Basis fr den Unterricht abgeben knnen. Der Einstieg sollte allerdings weit ber Anfnger-Niveau erfolgen. Die CD, bzw. Kassette dazu ist notwendig, da sonst jeder Bezug zur Aussprache fehlt. Wer Mongolisch nur fr eine Reise braucht, dem sei das "Mongolian Phrasebook" von denselben Autoren empfohlen, oder aber auf deutsch das "Kauderwelsch Mongolisch", beide ebenfalls bei , zum Kauderwelsch erhltlich auch eine CD, bzw. alles auf CD-Rom.

Pressestimmen"This text and tape set fills a great need. With it's fast-paced, no-nonsense approach, the learner is immediately introduced to the modified Cyrillic alphabet of the Mongols..for those learners desiring to acquire the language as it is spoken in Mongolia, and who are willing to get into the thick of things and learn the rules of the language by generalizing from authentic language examples, I know no better course."-"Mongolian StudiesKurzbeschreibungColloquial Mongolian is easy to use and completely up to date!
