A good addition to classesVon PterygoideusThis book represents a really good opportunity to learn Latvian in a really structured way.It explains the main grammar and most important words together in chapters which refer to the everyday life situations. (e.g. in a shop, train station etc.)But be aware of the fact that due to the complexity of the spoken Latvian this book will only give you the basic and theoretical understanding. A teacher or partner with whom you can practice will be absolutely necessary.Anyway I can recommend this book :)Best Regards
