**Von Zig Ziglar : Confessions of a Happy Christian** before purchasing it in order to gage whether or not it would be worth my time, and all praised Confessions of a Happy Christian:

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. As a Christian I found this book narrow mindedVon Ein KundeMy boss and I were told this would be a good book for us to read, to find happiness in business and life. We both bought it and were excited to get starded. Well, we both read, half

way through and were shocked at the authors very one dimensional view of what it means to love not only God but love and understand your fellow man. Zig may love his life and thats great, for him. The world is made up of many faiths who share many of the same belifes in origin and he paints a picture of fear, not faith in dealing with people that may not see the world as you do. I was taught eat the chicken and throw away the bones in life and in truth. I was offended by his narrow minded views of people of other faiths. Zig needs to realize Jesus was not born a Christian but a Jew! I really did not have much use for this book and don't even belive it is true. The person that recommended this book to me I greatly respect and admire but I have no Idea where he found the value in this book. Zig Ziglar at this point in his life was relying on what people told him the bible meant not reading and enjoying it for himself or he could never have said many of the things he said in here. Too bad for him. I only hope people don't look at a book like this for spiritual guidance but go to the source and read the Bible for themselves. Like George Burns said to the preacher in Oh God, Zig should stick to selling shoes.0 von 0 Kunden fanden die folgende Rezension hilfreich. A joyful celebration of faith, filled with uplifting advice.Von obwizard@aol.comI highly recommend this book for all Christians, but especially for new Christians. It is a joyous proclamation of faith, filled with amusing and uplifting anecdotes. Mr. Ziglar is famous for his motivational speeches and is highly sought after by corporate America to inspire and teach. He writes as well as he speaks and anyone who reads this book will greatly benefit from his shared experiences in Christian living. In today's world a book that focuses on the positive aspects of Christianity is welcome and this book is tops in that category. I have shared this book with many of my friends and if you are looking for a good book to give to a young person, graduate, new Christian, or anyone else, I highly recommend "Confessions of a Happy Christian." The doctrine is sound, the advice is excellent and the book is focused on the love and joy of living the Christian life.0 von 0 Kunden fanden die folgende Rezension hilfreich. I confess-I loved this bookVon valerie forteThis is such a joyfully written book. I think it is appropriate for "new" Christians as well as "old" Christians. Zig, as always, is right on target with his observations and insight. I highly recommend it.

KurzbeschreibungZiglar's autobiography exclaims those born again need not wander through life with long faces and short funds.KurzbeschreibungZiglar's autobiography exclaims those born again need not wander through life with long faces and short funds.ber den Autor und weitere MitwirkendeZig Ziglar is the author of fifteen other books, including Steps to the Top, Dear Family, and Confessions of a Happy Christian.
