**Von Peggy Guggenheim : Confessions Of an Art Addict** before purchasing it in order to gage whether or not it would be worth my time, and all praised Confessions Of an Art Addict:

KundenrezensionenHilfreichste Kundenrezensionen4 von 4 Kunden fanden die folgende Rezension hilfreich. Confessions, Sort OfVon Ein KundePeggy was a trip. She also apparently had no editor, or so it seems, which adds to the air of entitlement and oblique charm that permeates this book. Her accounts are interesting historically, though PG's slant on history is sometimes its own beast. This is a quick read and some of her observations will make you

laugh out loud ("I was worried about my virginity--I was twenty-three and I found it burdensome..."), while others are chilling, especially the question of which Jews she deemed worthy of her efforts to help them get to the States. This may be more entertaining than informative, but it's both.<sup>3</sup> von 3 Kunden fanden die folgende Rezension hilfreich. A "must have" book for any art lover! Von AZodrow@aol.com or Marialuisa Zodrow This is a book you do not want to finish, you constantly wish that as you progress in your reading as the book will unfold in more pages. It does not happen. What a life story, full of art and style. What a charming book, simple and direct. Easy to read but so full of references to the Art of this Century. Peggy lived and tell the life of a brilliant collector not only of art pieces but of emotions and feelings. To me this is one of the best books of the year. It goes on top of DV by Diana Vreeland on my nightstand.

Kurzbeschreibung A patron of art since the 1930s, Peggy Guggenheim, in a candid self-portrait, provides an insider's view of the early days of modern art, with revealing accounts of her eccentric wealthy family, her personal and professional relationships, and often surprising portrayals of the artists themselves. Here is a book that captures a valuable chapter in the history of modern art, as well as the spirit of one of its greatest advocates.
