KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Classic ArgumentVon Ein KundeIn "Counterfeit Miracles" B.B. Warfield makes a persuasive case for the cessation of miracles after the time of the apostles. The book is well written and cogently argued, and I would highly recommend it. For those wanting to read a good response to Warfield's thesis, I would also recommend Jon Ruthven's "On the Cessation of the Charismata."

Kurzbeschreibung"Because Christ is all in all, and all revelation and redemption alike are summed up in Him, it would be inconceivable that either revelation or its accompanying signs should continue after the completion of that great revelation with its accrediting works."Counterfeit Miracles is a vigorous argument against the existence of the supernatural spiritual gifts. Warfield updates his readers with recent scholarship on the topic and gradually engages with various traditions (Roman Catholic, Medieval, Irvingite Gifts) that purport to possess charismatic gifts. This work will endue the reader with a generous dose of biblical argumentation against non-cessationism.This electronic edition features an active table of contents and footnotes.Counterfeit Miracles is part of The Fig Classic Series on Modern Theology.
