Von Robert Moriarty : Crap Shoot (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Crap Shoot (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. A gripping narrative and a worthwhile read!Von Douglas Alan LeishmanThis short novel packs a lot of action into a short space.For the main plot, we get the dream come true scenario of our hero, a 19 year old fighter pilot going from novice to ace in one sharp move.But wait there is more. Embedded in the story, in an unfolding romance, is a cameo

Pride and Prejudice sub plot, albeit anchored in the kitchen sink dramatic profanity of the 20 th Century , in absolute contrast to the immeasurable prose of Jane Austen.Plus we get a brief introduction to the mathematics of Crap Shooting, and then a magnificent aerial dog fight, where our hero shoots down 5 enemy fighter aircraft in 10 minutes to become the hero of the drama, taking all the accolades, including, you guessed it correctly, the femme fatale.Despite the brevity, the author manages to build some Dickensian depth into the character sketches of his two main subjects.All said, a gripping narrative and a worthwhile read!

KurzbeschreibungA young Marine fighter-pilot faces the worst odds imaginable over the flak-filled skies of North Vietnam when three enemy fighters jump him. Should he fight when all seems hopeless or turn and run to safety so he might return to fight another day?What are the odds of him making it home to his beloved wife?Welcome back to the world of quick-to-read action-packed inexpensive books from the finest writers we can find. We designed Peanut Books for your easy reading convenience. We want to recreate the Dime Novel so popular a hundred years ago.You can read one of our Peanut Books in two hours or less. We deliberately kept the books short so you can finish a book in one session. Each Peanut Book is a complete story but some of the books will be part of a series which can be started anywhere.Why dont you sit back for a couple of hours and just enjoy a good read?KurzbeschreibungA young Marine fighter-pilot faces the worst odds imaginable over the flak-filled skies of North Vietnam when three enemy fighters jump him.
