Von Nonie Darwish : Cruel and Usual Punishment: The Terrifying Global Implications of Islamic Law before purchasing it in order to gage whether or not it would be worth my time, and all praised Cruel and Usual Punishment: The Terrifying Global Implications of Islamic Law:

KundenrezensionenHilfreichste Kundenrezensionen3 von 8 Kunden fanden die folgende Rezension hilfreich. Scary

but not entirely convincing Von Helen Hancox Nonie Darwish is an Egyptian woman now living in America and in this book she seeks to explain the reality of Sharia law, particularly with regard to the position of women. This book was a very scary read - the way in which women are apparently treated, the quotations from the Qur'an about their value and worth, the rules by which women appear to just be sex objects to their husbands, the impact that Sharia law can have. This was all extremely disturbing reading. However I couldn't help but wonder, the whole time in which I was reading this book, how accurate it is. I am sure there are some people out there who do hold to these views, but I wasn't convinced that they were the majority. We all know what dodgy stuff can be read from the Bible, but that Christians believe that interpretation tells us things are different. Is this the case with Islam? I suspect it often is. The book was interesting and gave some insights into the history of Islam which I found very helpful. However the author's rather overdramatic statements about Islam just didn't work for me; perhaps she's right, but I wasn't sure and so it left me feeling a bit disappointed by the book.

Kurzbeschreibung Nonie Darwish lived for thirty years in a majority Muslim nation. Everything about her life?family, sexuality, hygiene, business, banking, contracts, economics, politics, social issues, everything?was dictated by the Islamic law code known as Sharia. But Sharia isn't staying in majority Muslim nations. Darwish now lives in the West and brings a warning; the goal of radical Islam is to bring Sharia law to your country. If that happens, the fabric of Western law and liberty will be ripped in two. Under Sharia law: A woman can be beaten for talking to men who are not her relatives and flogged for not wearing a headdress Daughters, sisters, and wives can be legally killed by the men in their family Non-Muslims can be beheaded, and their Muslim killers will not receive the death penalty Certain kinds of child molestation are allowed The husband of a "rebellious" wife can deny her medical care or place her under house arrest Think it can't happen? In 2008, England?once the seat of Western liberty and now the home of many Muslim immigrants?declared that Sharia courts in Britain have the force of law. When Muslim populations reach as little as 1 or 2 percent, says Darwish, they begin making demands of the larger community, such as foot-level faucets for washing before praying in public schools, businesses, and airports. "Airports in Kansas City, Phoenix, and Indianapolis are among those who have already installed foot baths for Muslim cab drivers," writes Darwish. These demands test how far Westerners will go in accommodating the Muslim minority. How far will they push? The Organization of the Islamic Conference works to Islamize international human rights laws and apply Sharia "standards" for blasphemy to all nations. The penalty for blasphemy? Death. Weaving personal experience together with extensive documentation and research, Darwish exposes the facts and reveals the global threat posed by Sharia law. Anyone concerned about Western rights and liberties ignores her warning and analysis at their peril. Kurzbeschreibung Nonie Darwish lived for thirty years in a majority Muslim nation. Nonie Darwish presents an insider's look at Sharia and examines how radical Muslim laws are destroying the Western world from within. Living under Sharia law for the first thirty years of her life, a virtual slave to Islamic law, Darwish never questioned or challenged her rights - she didn't dare to even think about the validity of Sharia laws. She didn't try to examine what Sharia was, how it came about or why she followed it. 'This is Allah's law,' she was told, and she knew what awaited those who questioned Allah's law. But she doesn't believe the lies anymore, and now she wants to share her experiences with the Western world. "Cruel and Usual Punishment" is an insider's look at how Muslims sacrifice their basic human rights to obey the archaic and brutal laws handed down to them by their prophet centuries ago and how Sharia Law seeks to destroy democracy by

infiltrating Western culture from within.
