I will name my next daughter for Daisy Von Ein Kunde I got into this book thinking, "What EVER." I was put on bed rest while gestating right after I had signed up to be a leader for GSUSA. My co-leader gave me a copy to read while literally sitting out the next three months until I had my son. I was surprised that I liked it so much! Juliette Gordon Lowe was hearing impaired, and even though she lived at a time when handicaps were a real impairment, she used her lack of hearing to an advantage! She also dealt with courage her husband's alcoholic problems and, and showed herself to be a truly driven person. She was not ahead of her time-- she was a woman of her time, as women were just getting

used to Queen Victoria's stifling influence being over with, and she was there to teach the new generation of girls what living was all about. I found myself not wanting to put the book down and I would tell my daughters stories of what I read for months after I read this!
