Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. Gute Einführung, viele Anregungen und Reflexionsmöglichkeiten Von equanimity Der Titel liefert eine Fülle an Anregungen für die eigene systemische Arbeit im schulischen Kontext. Im Mittelteil des Buches beschreiben die Autoren, wie ein "narrative counseling" im Modellfall aussehen kann. Das Buch ist mit hohem Anspruch geschrieben, und verweist

immer wieder auf die hinter diesem Ansatz stehenden theoretischen Verankerungen (v.a. auf den (De)Konstruktivismus). Empfehlenswert.

Kurzbeschreibung Help students shed negative labels and develop healthy behaviors! This updated edition will assist students in narrating stories that "redescribe" who they are and who they can be. Pressestimmen "What a gift to education! By practicing the ideas in this book, school counselors everywhere can help create new descriptions and stories that will transform the academic lives and behaviors of their students. Not only will schools be practicing what they have been preaching in the way of promoting respect from their students, they will receive that respect back in return."--Linda Metcalf, Author (06/02/2006)-What a gift to education!
