**Von Trevern and Anna Dawes : New Zealand: A Photographer's Guide (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised New Zealand: A Photographer's Guide (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Best guidebook, not only for photographersVon ThomasAs I organized my 4-weeks-trip to New Zealand, I was searching the internet for good photo-spots, and, by chance, found this book. I have just returned from my trip, and I can say, that this guide was even more useful than any of my "classic" tourist guides. As a passionate hobby-photographer, I planned my journey using especially this guide, and so discovered the most beautiful and exciting spots in New Zealand. This book describes places, that are often not mentioned in tourist-guides, though they are really worth to be seen, even for non-photographers. The authors have taken great care to describe almost every region of NZ, almost

every spot, with good advices how and when to get there, complemented by beautiful pictures. I wish, there would be a guide like this for every country. The only disadvantage is, that its a bit difficult for people, who don't own an e-book reader, or don't want to take it along when traveling. I printed the guide out by making screenshots of every site (because the software doesn't allow printing it). But having this guide always with you, it's really worth the effort. Greetings, Thomas (Austria)

Kurzbeschreibung A comprehensive guide to New Zealand's best photographic locations, with advice on when and where to go, and featuring more than 150 superb images from around the country. Authors Trevern and Anna Dawes have travelled extensively around New Zealand. Over the years they have compiled a collection of great images and useful tips that will save photographers a huge amount of time to reach the best locations at the right time. Starting in the North Island, the guide provides a virtual tour around New Zealand, including map links for each location and experienced advice on the photographic gear suitable for New Zealand's wide variety of environment. Each location is illustrated by high quality images that include volcanic, thermal, alpine, forest and coastline scenery. To view some sample images from the book, go to [www.photoreview.com.au/information/new-zealand-a-photographers-guide.aspx](http://www.photoreview.com.au/information/new-zealand-a-photographers-guide.aspx) About the Authors Trevern and Anna Dawes have travelled extensively around New Zealand, and they have a number of general travel books and magazines published. They know the right places and the routines to ensure you capture the best of New Zealand.
