Von Sib Ventress : No Sleep 'til Cooperstown (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised No Sleep 'til Cooperstown (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Grand Slam Home runVon CubbieWhat a great little book this is.The author and his son make a trip to Cooperstown and have the times of their lives.I do love Baseball too and I have been to the Hall twice, so I can relate very much to this

wonderful story. The book was great fun to read and I can recommend it to Baseball lovers near and far. Would be nice to see "The Boy" in the big leagues in about 10 years from now.

Kurzbeschreibung A 12-year-old boy's odyssey to the birthplace of baseball, to play in a week-long tournament, is told through the eyes of his father, who is blissfully along for the ride. Funny and heartwarming, it is an unabashed love letter from a father to a son, and to the game that binds them together.
