Von Caroline Frost : One More Mountain (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised One More Mountain (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Ein ganz anderes ReisebuchVon Thomas Oestreich ein erstaunliches Buch von und ueber ein erstaunliches Paar. Die Autorin vermochte es, mich von der ersten Seite an in ihren Bann zu ziehen. Das, was hier erzahlt wird, ist Realitaet und sollte jedem von uns Lesern eine aufforderung sein, unsere Hintern aus dem Sesseln zu bekommen und uns mal an die

Grenzen unserer "Comfort Zones" zu begeben bevor es (aus welchem Grund auch immer) zu spaet dazu ist. Amuesant, erfrischend und nachdenklich zugleich!

Kurzbeschreibung Caroline and her husband Allister were in Covent Garden, on a very cold November night in 2009, when they made a life changing decision. They would put everything they owned in a storage container, buy some rucksacks, and take a trip around the world for a year. One More Mountain is about their gap year for grown-ups. Its an intriguing tale of their diverse journey around the world and so much more. Four interwoven stories explore the emotions of facing a future without being able to have children, the impact of cancer on their life, how they planned for their life changing adventure, and how they spent an incredible year away from everything they knew. It was a year that started in Singapore and ended in France. It was a year in which they bought a car and camped their way across Australia. It was a year in which they hiked the trails of New Zealand, island hopped in Hawaii, explored forests and cities in North America, and climbed the mountains of Scotland. s are calling it emotional and humorous, inspirational and a compulsive read.
