Von Martin Addison : Painter X for Photographers: Creating Painterly Images Step by Step before purchasing it in order to gage whether or not it would be worth my time, and all praised Painter X for Photographers: Creating Painterly Images Step by Step:

KundenrezensionenHilfreichste Kundenrezensionen3 von 3 Kunden fanden die folgende Rezension hilfreich. Zu wenig NeuesVon B. RolfWer das Vorgngerbuch "Painter IX for Photographers" nicht besitzt, wird mit diesem Buch

sehr zufrieden sein. Ansonsten enthält es zu wenig Neues, um den Erwerb zu rechtfertigen. Darum nur 4 Sterne. Das Buch ist dank seinem workshopartigen Aufbau sehr für das Selbststudium geeignet. Die Originalphotos aller Workshops sind auf der CD vorhanden. Man kann die Beispiele dadurch gut nachvollziehen.

Kurzbeschreibung Whether you are just starting out with Painter, or are a seasoned pro who wants to take your photographs to the next level, you can't go wrong with this essential guide by your side! Covering Painter X, but also applicable to earlier versions and to both PC and Macintosh users, this reader friendly book and DVD package will show you how to get the most out of this powerful program. Uniquely written specifically for photographers, Martin Addison gives a complete overview of the program, showing how to master each exciting tool, including the brand-new RealBristle and Smart Stroke brush libraries. Two all-new portraiture chapters show you how to turn photographs of your family members or professional clients into works of art ideal for framing. You'll be able to give all of your precious photographs the painterly touch in no time! Be sure to visit the accompanying website www.painterforphotographers.co.uk to view even more images and information to get you started! Pictures by Martin and Doreen Addison can be seen on their website: www.martinanddoreen.co.uk.

Pressestimmen "The clear structure and concise writing style takes the reader through brushes, papers and textures. Combined with an intelligent layout and a Windows/Mac compatible CD, Painter IX for Photographers is exemplary for its clarity and structure." - British Journal of Photography "Whether you're new to the software program or have used it for years, this guide goes through the brushes, papers, textures and other tools for creating artistic interpretations of your photographs." - PC Photo (Feb. 2008) s of Painter IX for Photographers: "With his easy to follow instructions, Martin leads you through each technique in an understandable and painless way...His descriptions of the various cloning methods are masterful" - Royal Photographic Society Journal "The clear structure and concise writing style takes the reader through brushes, papers and textures. Combined with an intelligent layout and a Windows/Mac compatible CD, Painter IX for Photographers is exemplary for its clarity and structure." - British Journal of Photography "This is a quality publication which very effectively covers the capabilities of a great software package. It is well laid out, with a high quality finish, excellent full colour illustrations and colour coded sections to clearly separate the chapters...Painter IX for Photographers is a book which for me makes the perfect companion to this great software package. Highly recommended." - www.kickstartnews.com "an easy read with lots of imagery and explanation. A great addition to those who are new to Painter IX, or those who just wish to brush up on their digital painting skills." - John Virata, DigitalProducer.com "Whether you're new to the software program or have used it for years, this guide goes through the brushes, papers, textures and other tools for creating artistic interpretations of your photographs." - PC Photo (Feb. 2008)
