KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Solid GoldVon Angelina HarrisonThis book is a treasure chest waiting for you to open. The author admits that even children who have been read to since they could sit up may not love reading, and this unloads the burden of guilt that many of us have been carrying around for years. Leonhardt also provides many concrete suggestions for parents and teachers. This book is a must for all homes and schools.0 von 0 Kunden fanden die folgende Rezension hilfreich. Fantastic book and author.Von Ein KundeThis is a fabulous book for frustrated parents of children who can't/won't read. After I read it, I took my 11 yr. old daughter out, let her buy any 3 magazines and she read them right away. This book is clearly written and organized, with a very helpful recommended reading list at the end. I highly recommend it

KurzbeschreibungYou read to your children when they were small. You took them to the library. You bought them books at the bookstore. You love books yourself and read all the time. How did you get children who would rather clean up their rooms than read a book?Mary Leonhardts book describes why children have stopped reading, and what you can do to awaken a love of reading. She describes the stages children go through when they are coming to books, and coaches you in how to move your children through the stages.This is an updated, revised edition. When this book was first published in 1993, Doris Kearns Goodwin called it a small masterpiece that should be treasured by every parent..deSo you love reading and your kid doesn't. What caused this state of affairs, and what can you do about it? In Parents Who Love Reading, Kids Who Don't, Mary Leonhardt pins the blame on the educational establishment for the endemic dislike of reading among kids, and provides direct solutions. Her basic approach may surprise you: provide reading material that is easy and fun for children. Start with comic books, junk books, romance novels, mysteries, genre books of all kinds. The premise is simple: only avid readers are excellent readers; excellent readers become excellent only because they read a lot. Leonhardt, a long-time high school English teacher, makes a strong case for her techniques, and has the track record to prove it.Pressestimmen"There are not enough superlatives to describe this book. It's brilliant but easy to read, inspiring, and filled with tons of advice."-- Jim Trelease, author of The Read-Aloud Handbook"Writing with wisdom, warmth, and clarity, Mary Leonhardt has produced a small masterpiece that should be treasured by every parent. Read it, study it, enjoy it. It is a splendid and inspirational piece of work."-- Doris Kearns Goodwin, author of The Fitzgeralds and the Kennedys
