Learn AND celebrate our differences!Von Friendly"People" is a book not just for children, but for adults also. Reading--rather--talking about the pictures in the book with your child or your co-worker is learning about how different our world is and how diversity is beautiful. It's fun to see how people from all over the world look, play, pray, dress and eat in different ways; sometimes in a very silly way--depending on which side you are. I have used the book for many years in my human rights education workshops and I will use it now with adults to do inter-cultural relations and communications workshops. This book belongs in every child, student, family, and human relations manager's bookshelf.5 von 6 Kunden fanden die folgende Rezension hilfreich. Caution advisedVon Debbie ReeseAlthough I understand the praise this book receives, I'd like to issue a note of caution. In some cases, Spier has given us the exotic

depictions of the cultural groups he presents. In many cases, that exotic view is outdated. In essence, he has frozen some cultural groups in days past. Unless a teacher or parent points this out, children may believe, for example, that today's Eskimo people (who prefer Inuit or Inupiat to "Eskimo") live in igloos, and that American Indians live in tepees. That is simply not true of these two groups. I wonder about others he's depicting. I hope teachers and parents point out these errors in presentation!

Kurzbeschreibung In this encyclopedic picture book, Spier celebrates humankind in all its diversity-how we are similar and how we are different; in what we wear, eat, play, and how we worship. Small vignettes fill each page, illustrating the wonderful variety that exists among peoples of different cultures and races. Pressestimmen "The Caldecott Medalist has created his most ambitious and impressive picture book so far, with minutely detailed and exquisite paintings of human beings on all four continents."--Publishers Weekly, starred review. "A wonderful introduction to a global view that will answer and arouse curiosity in the young and act as an absorbing reminder for any age."--School Library Journal. The Christopher Award, An American Bookseller Pick of the Lists.
