**Von Susan Cameron : Perfecting Your English Pronunciation (NTC Foreign Language)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Perfecting Your English Pronunciation (NTC Foreign Language):

Leider sind die Formate der Video- (DVD) und Audio-Datei so alt (1995), dass ich schwierigkeit habe das DVD zu schauen: ich brauche dafr sehr viele Umwege. Die zwei AudioCD mit der bungen kann ich gar nicht ffnen.7 von 7 Kunden fanden die folgende Rezension hilfreich. Very effective and commendableVon NoraI always tried to hide my german accent when giving oral presentations in front of natives. So I decided to start working on my pronunciation with this teach-it-yourself-course. Its very effective and understandable. Now I'm aware of many mispronunciations because of wong tongue placements, lip adjustments and so on. It's really amazing how the sound of foreign language changes with a few adjustments and a bit of concentration. Well, to be honest part of my accent remains, but I could improve pronunciation to a point I'm (almost)

satisfied. Good luck and have fun with this teaching CD! Cheers, 6 von 10 Kunden fanden die folgende Rezension hilfreich. step-by-step instruction Von Irena Dieser Kurs ist für Selbstlernen sehr gut geeignet, man kann bei Tempo und Menge von den Aufgaben selbst entscheiden. Besonders gut finde ich die DVD- besser kann man nicht erklären.

**Kurzbeschreibung** Reduce your accent when pronouncing English, with the expertise from an acclaimed specialist in the area. Developed by acclaimed speech consultant and accent specialist Susan Cameron, *Perfecting Your English Pronunciation* features her successful method, which focuses on the anatomical placement of sound and on the musculature used in articulation. Where other accent reduction/English pronunciation products rely on solely mimicking of audio sounds, this work focuses visually, audibly, and narratively on the physical ability to speak English, noting that many sounds of English may be difficult for you because some tongue positions used in English may not be used in your native language. The 45-minute DVD introduces you to mouth and jaw exercises to prepare you for English, then demonstrates mouth formations and tongue placement using other nonnative speakers like you. You will see and hear how English sounds--enabling you to become more and more comfortable conversing with native English speakers as you go through the program.
