Von Pat Blaskower : The Art of Doubles: Winning Tennis Strategies and Drills before purchasing it in order to gage whether or not it would be worth my time, and all praised The Art of Doubles: Winning Tennis Strategies and Drills:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Order two at once: share one with your doubles partnerVon Ein KundeThis is a must read for the player who wants to advance. I wish I had this book five years ago when our team went to USTA sectionals. Every chapter has practical advice to win at doubles. It's worth at least a game every set. The book can be read and re-read until the truths sink in. Improvement does happen when the player realizes that there are optimum plays and positions and begins to understand what their jobs on the court are. Well worth the price.0 von 0 Kunden fanden die folgende Rezension hilfreich. This book provides a clear strategy for solid doubles play.Von Brent Abel (brent@webranch.net)The author has done a wonderful job of clearly presenting the most important aspects of being a good doubles partner, court

positions, and shot selections. Some old myths about doubles are taken to task by the author. It is refreshing to see a tennis pro speak the truth rather than simply rehashing old and tired cliches. This is also a great reference source for teaching pros to coach a specific style of play to the players in their leagues programs.0 von 0 Kunden fanden die folgende Rezension hilfreich. More suited for experienced doubles player trying to improveVon Ein KundeDid not read book in it entirety. In first several chapters found the author repeatedly referring to terms and topics and not properly defined in previous paragraphs or chapters. I believe the book well suited to experienced doubles players who already understand this facet of the game and are trying to improve, but not well suited to players such as myself, who are just beginning to play doubles and need understanding from the ground level up.

The Art of Doubles is loaded with practical, proven tennis strategies that you can put to work immediately to see improvements in your own doubles game!**Synopsis** Many tennis players play doubles and if they are looking for advice, we offer the best book for it at a low price. Illustrations help demonstrate the concepts being described in the book. Cartoons add to the lively and engaging aspects of the book and help it stand out from others. Readers will find this an intelligent and lively tennis guide. It will give readers the same great advice from the first edition (learning proper position, shot selection, mental toughness, etc.) and new information about the most important strokes they should learn, new defensive strategies, advanced drills, choosing a league, winning and losing as a team, and more. Updated diagrams and illustrations of the court, positions, and shots will demonstrate what is being explained in the text for readers. Readers will find new information in every chapter, plus four new chapters with new illustrations and cartoons.
