Magical Von Marie Sultana Robinson There's something magical evoked in this book. It takes astrology to a different level. It shows the Goddess in all of us in a clear and brilliant light. Not for the beginner, however any accomplished astrologer will find this a small gem to add to their collection of books. Something that will enhance any reading.

Kurzbeschreibung Explore the Moon through magical, transpersonal, and humanistic insights into the complex nature of personality. Paul provides us with in-depth analyses of the Moon's natal houses, signs, and planetary aspects, illuminating the Moon's powerful influence on shaping the individual. This book enters the hidden depths within the astrological Moon and examines the reawakening of the Moon Goddess through the growing interest in ecology, human potential, and the initiatory descent into the magical underworld.
