Fantastic book for moving toddlersVon CustomerWe are moving and I was worried that our 3yo wasn't understanding what was going on around him. My husband and I wanted to try and help him to come to terms with leaving the only room and house he's ever known.This book is absolutly FANTASTIC! It explains that the house they are leaving was a good house and explains why they are choosing to move. It talks about how they will take Brother Bears books and toys (he was worried he would have to leave them). It does a wonderful job of explaining that it's necessary to leave friends while not making it sad. They have managed to make *ME* feel better about leaving friends and our house.Our son can't wait to move now. If he has a question, he asks and we tell him and try to relate it to the bears story to help him understand. I can't give this book enough stars!0 von 0 Kunden fanden die folgende Rezension hilfreich. Oh No! Not My Toys!!Von Ein KundeMy three year old son cried for hours after I told him the movers would be packing up his toys and books...but he would get them back at our new home. A friend lent me this book. The book broke things down into language little ones could understand. They identified with the characters and saw that all in all, it turned out o.k. As we read the book, we discussed it. My three year old learned all about moving day. How much fun we would have at our new home..and he even asked where we would be moving. I told him Chicago..and he has been

telling everyone. This book took my three year old from tears to EXCITEMENT for moving day. If your planning a move..especailly a big one like we were....if you do nothing else for your child...buy them this book, to help them with their feelings and the transition.
