Von Georgie Edwards : The Best Medicine: The True Story of a Nurse who became a Doctor in the 1950s
before purchasing it in order to gage whether or not it would be worth my time, and all praised The Best Medicine:
The True Story of a Nurse who became a Doctor in the 1950s:

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich.

Lebendig, informativ, interessant
Von glomael
Eine kluge und engagierte junge Frau wird im England der 40er und 50er Jahre zuerst Krankenschwester und dann rztin. Dazu erlebt sie eine groe Liebe und wird Mutter von zwei Kindern. Eine engagiert und abwechslungsreich geschriebene Autobiographie, die man nur wrmstens empfehlen kann.

Kurzbeschreibung
I am one of the old school and believe that a womans place is within the home However, I cannot, I will not, condone unfairness amongst females. I suggest that in due course you send your Matron a letter of thanks. You had after all a most unusual reference.
In 1949, Staff Nurse Georgie Edwards is asked to chaperone medical students undertaking their practical exams when suddenly the penny drops. Georgie wants to learn to diagnose and treat too. Against the odds, she wins herself a place to study medicine at Londons St Bartholomews Hospital and she sets about becoming not a consultant who sweeps by but a doctor who listens and cares. Yet Georgie wants to fall in love and start a family as well as have a career is this one dream too many for a woman in the 1950s?
Warm and full of humour, The Best Medicine is Georgies fascinating memoir of her early years as a nurse and doctor.
Werbetext
A heartwarming memoir about a nurse who trains to be a doctor in the 1950s
