Cute intro to adding a baby to the family, but...Von Ein KundeI read this to both my girls, and the beginning is wonderful and age appropriate. However, in the middle of the book it goes into a birds and bees explanation that was completely confusing my daughters (4 and 7). They wanted to know what that had to do with the baby in my tummy. The answer is nothing, really, I felt it muddied the issue rather than clarifying. I also thought the cliffhanger was sort of a cheap trick to get us to buy another book.1 von 1 Kunden fanden die folgende Rezension hilfreich. Baby BerenstainVon Ein KundeI would give this 5 stars if they hadn't made it a cliff hanger. All in all it's a great book. Aspecially if your pregneant with a baby and want to share this special time with your kids.
