Latif Yahia!!Von M.SamAs with most people in the world Latif Yahia's name was somewhere in my subconscious attached to, of course, Uday Saddam Hussein. It was only after I heard Mr. Yahia on a national radio show here in Ireland (the Gerry Ryan radio show) that I became truly aware of him and his real story. I trawled all of the better known bookstores in Dublin in search of "The Black Hole" but with no luck, for whatever reason the Irish paperback market chose to exclude this book from their inventory, maybe it's because he's not Maeve Binchy, no offence Maeve. In the end I found it on Arcanum Publishing's website and finally here, I could not put it down, I was entranced at what this man had been through, I thought that what he had suffered in Iraq would be the end of it, I was wrong. My eyes were opened wide to the injustices that exist here in the West, they may not be as great as those perpetrated in other areas of the world but that does not make them excusable.I was particularly embarrassed that he mentioned that although he had been treated badly by the CIA and wrongly imprisoned in a covert CIA prison in Austria, that, all that paled in comparison to the treatment that he was receiving from my own fair country. In recent weeks Mr. Yahia has appeared in most if not all of the major newspapers here with regard to his battle with the Minister for Justice for Irish Naturalisation, it saddens me that after all that he has been through our " land of a thousand welcomes" will not welcome him as our own.I cannot explain to you how much you need to read this book, it is not just an amazing story of human survival, love, betrayal and political shenanigans but it is an eye opening read to what is really going on in our governments. It has opened my eyes, I urge you to open yours.I await his next book about Ireland with curiosity and trepidation.140 von 140 Kunden fanden die folgende Rezension hilfreich. Sceptical? Don't be.Von Jim KellyAs an Investigative journalist I am always interested in these "true stories", I suppose I am sceptical of most. Having done some background work on the CIA, rendition flights and covert prisons, I am convinced that what this man has said in his book is true. It has long been the policy of the American administration be it Bush's or other, to deny first and then admit the truth, it will therefore not be too long, a year or so until everything contained in The Black Hole will be confirmed. I myself made a few enquiries to the Austrian government and the CIA with regards to this book, not surprisingly they made "No Comment" which in itself is an indication that they are aware of his existence. As for the author's motives, well yes it is a great read and maybe he will sell a ton of books, but he seems to be donating his profits to a children's hospital so maybe money isn't the goal, maybe just to be heard is.138 von 138 Kunden fanden die folgende Rezension hilfreich. Very Interesting Book.Von Hanna.H.KFirst of all i want you to know that your Book THE BLACK HOLE had caught my breath. It's one of the books that makes my thinking what happens in the world.A few times I felt so sad because It became clear to me that I thought so naively that something like this can't happen in the reality. I'm very Interested in politics and in the future I want to change the stupid things that are going on.So this Book leads to my decision to study Politics ..The Black hole no 1 Book about dert work of CIA around the world.I know i'm not alone in saying i admire you for your courage to speak out about Bush his evil CIA .

KurzbeschreibungThis book is a sequel to The Devil's Double.The Black Hole has been banned in Irish and American Book Shops..The next chapter in the extraordinary and chilling life story of author Latif Yahia. The Book the American CIA don't want you to read.In an extraordinary twist of fate and because of his uncanny resemblance to Uday Saddam Hussein, Latif Yahia is forced to work as the "double or fiday" of the despots son. During his training, he witnesses the true evil of the man that he is forced to imitate and the brutality of the Iraqi regime at first hand. While attending state functions and royal audiences as his loathsome master, Latif ponders his escape strategy. Undeniably the life of wealth and excess is enticing but he is no more than a bird in a gilded cage. After several assassination attempts against Latif/Uday fail and during Gulf War 1, Latif makes his escape from his life of hell through the Northern Kurdish Territories, with the help of the CIA he is flown out of Iraq to a "New Life" in the West and this is where "The Black Hole" picks up his remarkable story.On the 9th of March 1992 Latif Yahia emerged from behind the walls of the Kingdom of Terror. Vowing to settle his account with the Baghdadi regime he bolsters himself for the battle ahead. Knowing his adversaries well he was prepared for the fight but nothing prepared him for the reaction he would receive from the Western Intelligence Services. The game of cat and mouse that ensued would take him across the breadth of Europe, find him imprisoned in a covert CIA prison and see him survive four assassination attempts and the brutal murder of his beloved Saudi Princess. A compelling true story that has been played out in the world's media. Latif Yahia the man that broke the news to the world of Saddam Hussein's inner circle, he remains stateless since his flight from Iraq in 1992 until this day.When the news of covert CIA prisons in Europe broke in 2006, Latif quietly laughed to himself, he knew this in 1994.Book Description:This is the next chapter in the extraordinary and chilling life story of author Latif Yahia. Having escaped the brutal Iraqi regime through Northern Iraq with the help of the CIA in 1992, Latif touched down in Austria. Having family in the pristine and picturesque city of Vienna, Latif is somewhat reassured that his life will be calmer now without Uday Saddam Hussein and his hedonistically violent lifestyle. Alongside Latif is Nusa, a hired girl, a plaything and ego boost for her Baghdadi clientele, although she has never been mentioned in Latif's past works the reasons for her concealment become

apparent as the story unfolds. Unfortunately life was never to become the idyll that Latif desired, his knowledge or perceived knowledge of the inner Iraqi regime was to become his saviour and his tormentor. This, left him chained and unable to move forward, as much as he wished to forget, his handlers wanted to know more. Latif became almost a prized item in the world of International Intelligence with nearly all of the world's Intelligence agencies vying for his allegiance, his pleas for neutrality and normality unheard. Ultimately Latif was to pay the price for his uncooperative stance; ten and a half months were spent in a covert Austrian/CIA prison cell in solitary confinement, until by chance his freedom was assured by a visiting judge.
