Von Ian McDonald : The Brutal Blade of Bruno the Bandit (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Brutal Blade of Bruno the Bandit (English Edition):

KurzbeschreibungBusting loose from the pages of his long-running webcomic (www.brunothebandit.com), Ian McDonald brings you the very first misadventures of his mercenary hero Bruno the Bandit. Join Bruno, his microdragon sidekick Fiona, and a varied cast of characters who populate Rothland in a quest for fortune and adventure as some of the best comics on the web become some of the funniest comics in self-publishing. In addition to a great lineup of Bruno the Bandit stories, Volume One of "Brutal Blade" features all-new cover art by legendary

Conan artist Ernie Chan and comments from equally legendary comics writer Roy Thomas. The interior features an introduction by Bill "Kevin and Kell" Holbrook, and pinup art from a who's who of webcomics greats, including Pete "Sluggy Freelance" Abrams and Chris "Superosity" Crosby. We've worked hard to make sure that the first issue of "Brutal Blade of Bruno the Bandit" is a volume that any fan of quality comics will want to add to their collection.
