book is a must for all Sunday School Teachers
Von Ein Kunde
The book is exactly what the title says. If you want to become a better teacher or would like to know what to do when you are asked to be one, this is the book. I now use this book as a foundation to prepare lessons, different methods, styles and motivational tactics.

Kurzbeschreibung
A strong and vibrant Christian education program lies at the heart of a growing church. No matter what the philosophy or approach to education, no program can flourish without skilled and dedicated teachers. While some such teachers are born, Israel Galindo believes that many others can be made. The author bases his advice on sound educational theory and on years of experience in Christian education. He is not content to develop merely good teachers. His ideas and principles will help teachers become the best they can possibly be. He addresses such questions as: What is unique about Christian education? Are some approaches to Christian teaching more appropriate than others? Is there a different way of learning not just information gathering that impacts faith matters? What skills does the teacher need to possess for effective instruction in the church?

Autorenkommentar
A good education program requires skilled teachers! I wrote this book out of the conviction that a quality education program, be it in a school or church setting, depends on the quality, skill, and competence of its teachers. This book explores those essentials for becoming a "very good teacher." Based on research and over 20 years of education experience (in classroom and administration), readers and educators will find a rich resource for practical teaching competence. I also lead seminars and workshops based on the material in *The Craft of Christian Teaching*.
