Von Lynn M. Hamilton, Wyatt North : The Dalai Lama: A Life Inspired (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Dalai Lama: A Life Inspired (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Lesenswertes Buch ber das Leben des Dalai Lama und den Konflikt zwischen Tibet und ChinaVon Carsten NolteHamilton beschreibt sachlich und interessant das Leben des Lhamo Dhondup, beginnend bei seiner Geburt in

1935, bei seiner Identifizierung als Dalai Lama, seine Ausbildung und seine Flucht nach Indien bis hinein in das Jahr 2014. Schwerpunkt des Buchs bildet der Konflikt zwischen Tibet und China. Die Lehren und Weisheiten des Dalai Lama kommen in begrenztem Umfang am Rande zur Sprache, dazu muss man sich wohl ein anderes Buch suchen. Alles in allem ist dies ein gutes, lesenswertes Buch, das die historische Situation um Tibet, den Konflikt mit China und den Weg plus die Entwicklung des Dalai Lama sehr gut beschreibt.

Kurzbeschreibung
What does the Dalai Lama's life teach us? Certainly, he is a sterling example of turning adversity into joyful service. But there is more to him than that. He is also a model of innovation and adaptation. He has taken the tenets of Buddhism and made them relevant to everyone. He has found commonalities in the teachings of Catholicism and Buddhism. His message is not just about personal happiness and good karma, it is also very much about respecting the earth's resources, recognizing the equality of all people, and sharing with the less fortunate. He has said that, at ninety, he will decide whether his long series of lives as the Dalai Lama will end. As of this writing, he is nearly eighty. Will he live another ten years? We can only hope so.
