Torrey is obviously addressing the heretical teachings of his time such as evolution, modernist and christian science to name a few. By teaching the attributes of God, he arms his readers with a foundation for removing all doubt that may come as a result of the evolutionists, modernists, and the

other attacks against the true one God and Christianity. It will most certainly give you a better knowledge of God and His attributes. This is simple teaching without the verbiage you will find in more scholarly theological discussions on this subject. This is a timeless classic. I only wish he had given more practical application type of insights that I am used to when reading his books. However, Mr. Torrey says himself in this book, " There are countless blessed and glorious applications of and inferences from this great truth..... You must make these applications and inferences for yourself." The information he gives will strengthen your faith as YOU learn how to apply the knowledge of God's attributes in your Christian walk.
