Von Stephen Braiden : The Greasy Spoon (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Greasy Spoon (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. lovely time travel and humming through the storyVon JaneIntentionally I bought this book because the author is a friend of a

friend of mine. Pleasantly surprised that I can relate to the book and in an instant was caught in the story. While reading I was 'imaginary hearing' the sounds of the songsGreat work. I like humming while reading this makes it incredible vivid.1 von 1 Kunden fanden die folgende Rezension hilfreich. The Irvine Welsh of EnglandVon bob mcbobHilarious, thoughtful and accurate portrayal of the emerging rave scene in London. The erudite writer was quite obviously there at the time.

KurzbeschreibungSet in the late nineteen eighties London at the time of warehouse parties and acid house, this is the story of a young white squatter who falls in love with a black single mother. She breaks his heart and only a wild trip to Ireland with friends helps him realise who he is and what he wants.Written with humour and compassion, this story will appeal to anyone who has grown up with music and drugs, anyone whos been young and foolish, anyone whos lost something they never had.Disclaimer: All the characters in this book are fictitious and any resemblance to persons, living or dead, is purely incidental.KurzbeschreibungSet in the late nineteen eighties London at the time of warehouse parties and acid house, this is the story of a young white squatter who falls in love with a black single mother.
