Von Sarah, 1854-1943 Grand : The Heavenly Twins before purchasing it in order to gage whether or not it would be worth my time, and all praised The Heavenly Twins:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. WHY has Sarah Grand been ignored this century?Von Ein Kundelf you are a Victorian novel aficionado as I am, you should thoroughly enjoy Sarah Grand's sprawling, strange story. The eponymous twins are bizarrely, intriguingly atypical as far as nineteenth-century characters go. Grand gives a picture of feminism in its embryonic stage--the woman was certainly before her time, as are most of her female characters. Fear not, however; this is no simple "men-bad-women-

good" tale. Nastiness and nurture are fairly evenly distributed between the sexes. Although the story meanders at times between its main branches, it is well-written and worth resurrecting for the 1990s. My main quibble is that Grand's voice tends to take over at certain moments (especially when she's getting angry about her society). But please read this book anyway, especially for its shockingly non-Victorian ending.

KurzbeschreibungHardPress Classic Books SeriesFrom Publishers WeeklyOriginally published in 1893, Grand's novel advances feminist views and otherwise violates taboos of the Victorian age. Copyright 1993 Reed Business Information, Inc.KurzbeschreibungHardPress Classic Books Series
