**Von Dan Kieran : The Idle Traveller** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Idle Traveller:

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Good read for your vacations!Von damatthiasclever, funny and also with interesting anecdotes that you would not have expected in a book about travelling. lots of insights into psychology, human mind and emotions. sometimes a bit chatty, kieran often takes too long to get to his point in the chapters, but it's ok.0 von 0 Kunden fanden die folgende

Rezension hilfreich. Great book! Von Katarzyna Szopiska A wonderful book, very interesting thoughts and ideas. It is a must read for all travelers that have a feeling they lost the sense in their trips and need some reminder of what it is that really matters when you're on the road :)] 2 von 3 Kunden fanden die folgende Rezension hilfreich. More than just another travel book Von Fred Meyer After having completed 50% of Dan Kieran's "Idle Traveller" I became highly sceptical. I had expected some more details on his famous ride in a milk-float across Britain and wanted to read less about his walks in his immediate surroundings or other travels he had embarked on. But that rating would be too harsh, because Kieran then manages to introduce some very interesting ideas from neuroscience, which might help explaining the way we travel. In this way, the book is on more than just about your next journey.

Kurzbeschreibung As we jet off on holiday, passing from airport lounge to hotel in our desperation to escape our everyday lives and find some better weather, we do well to ask ourselves what on earth we're doing. Do we really travel any more, or do we just arrive? The Idle Traveller calls on us all to re-assess why we travel and what travel has become. Besides extolling the virtues of staycation holidaying, Dan Kieran argues we need to bin the brochure, glide rather than fly, embrace disaster, be epic in our travel pursuits and immerse ourselves in the life-changing experience of true journeying. The Idle Traveller is an inspiration to travel more meaningfully and enjoy the journey. Isn't it about time you allowed your travel plans to slow down? Pressestimmen "Thought provoking and often comical." -- "Lonely Planet" "Thought provoking and often comical." "Lonely Planet" "Deeply alluring . . . beautifully told. Wherever you travel, you'd gain a lot from reading this book." Telegraph "Thought provoking and often comical." Lonely Planet "Kurzbeschreibung As we jet off on holiday, passing from airport lounge to hotel in our desperation to escape our everyday lives and find some better weather, we do well to ask ourselves what on earth we're doing.
