KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Neue Auflage und besser. Von Kindle-KundeIch kenne das Buch von früher. Viele Fehler wurden korrigiert. Ich finde die Theorie interessant und trotzdem würde ich das Buch nicht unbedingt empfehlen.

KurzbeschreibungThe Information God represents a completely new, unique, never published before theory about God and Spirit. Although the book deals with philosophical and spiritual matters, it is also based on rational logic and common sense and can be perceived as a true How to book. Anybody who ever asks the questions what is God, what is spirit, what is information and what is energy and how do we find reflections of these phenomenon in our everyday life will want to read this book. But what would appeal to almost any reader is that The Information God discusses some vital everyday issues from the spiritual point of view - sex, the United States presidency, democracy, wars, killings, language, sport shows, movies, food, drinks, etc.
